National Scientific and Technical Societies of the United States

B & 21ST STREETS, WASHINGTON, D. C.

27 March 1926

Reverend Frank Fitt
The Manse
Highland Park, Illinois

Dear Doctor Fitt:

Thank you for your kind letter of
March 24 with its approving reference to my article
in the March WORLDS WORK.

Dogmatism is common to theology,
philosophy, science, politics, business. It is to
be fought wherever it exists for it holds back
human understanding and progress. Science does
have something of an upper hand just now and hence
is especially likely to become dogmatic. As a
scientific man I don't want to see this happen.
Hence, my feeble cries.

Very sincerely yours,

Vernon Kellogg
